

EHTISHAM SADIQ

Data Scientist/Machine Learning Engineer

📞 +92-3054661042 ✉ raiehtisham786@gmail.com [in linkedin.com/in/ehtisham-sadiq/](https://www.linkedin.com/in/ehtisham-sadiq/) github.com/ehtisham-sadiq

Summary

Data scientist and machine learning engineer with 2+ years of experience in building and deploying state-of-the-art ML models to solve real-world problems. Expertise in NLP, deep learning, and MLOps. Proven ability to design, develop, and deploy scale-able ML solutions that drive business value. Passionate about using data science and ML to make a positive impact.

Education

Punjab University College of Information Technology

Bachelor of Science in Software Engineering

Oct. 2019 – May 2023

Lahore, Pakistan

Relevant Coursework

- Data Structures
- Software Methodology
- Algorithms Analysis
- Database Management
- Artificial Intelligence
- Machine Learning
- Natural Language Processing
- Deep Learning
- Software Engineering Practices
- Communication Skills
- Mathematics

Experience

Vacon.AI

Machine Learning Engineer

May 2023 – Present

Lahore, Pakistan

- As an ML Engineer, I lead the development, deployment, and maintenance of state-of-the-art machine learning models across diverse applications. Collaborating closely with cross-functional teams, I transform innovative ideas into scale-able solutions.
- Conducting rigorous experiments, data analysis, and insightful observations are integral to my role. I optimize machine learning model performance through efficient data pipelines, ensuring consistent and superior results.
- To drive continuous improvement, I remain at the forefront of the evolving machine learning landscape. By integrating the latest technologies and frameworks like FastAPI, Flask, Keras, PyTorch, Hugging Face, OpenAI, Large Language Models, and cloud services like Google Cloud and AWS, I contribute to advancing our products and services.

DGB Technologies

ML Engineer Intern

Sep 2022 – Mar 2023

Lahore, Pakistan

- Proficiently pre-processed and cleaned data, optimizing it for machine learning models. Engineered features and fine-tuned algorithms to deliver tailored solutions for diverse tasks.
- Skillfully trained, validated, and fine-tuned machine learning models, ensuring top-tier performance. Evaluated model outcomes and seamlessly collaborated with cross-functional teams on intricate projects.
- Actively contributed to integrating innovative machine learning solutions into existing systems, enhancing overall performance. Maintained a pulse on the latest advancements in machine learning and data science, continually improving practices.

Blink Co Technologies Ltd.

Data Analyst

Aug 2021 – Aug 2022

Lahore, Pakistan

- Utilized Python for data gathering, pre-processing, and analysis, ensuring data integrity.
- Applied advanced analytical techniques to identify trends and present insights effectively.
- Crafted clear and informative reports and visualizations to convey complex data findings.

Zep Analytics

Data Science Intern

Jan 2021 – Apr 2021

Remote

- Collected and pre-processed data, developed ML models, and enhanced feature engineering.
- Extracted insights from diverse data-sets, communicated findings effectively, and deployed solutions.
- Designed innovative solutions, collaborated across teams, and adapted to new technologies.

Projects

A web application for the prevention of mental disorders in social media posts using NLP

- Engineered a web app for proactive mental disorder detection in social media content, deploying NLP and deep learning.
- Demonstrated NLP and deep learning expertise with PyTorch, TensorFlow, and MongoDB, and ensured its continual operation and maintenance.
- Utilized NumPy, Pandas, Matplotlib, Seaborn, and SKlearn for data analysis, contributing to enhanced mental health awareness.

Evaluating Product Performance through BlueCart API Extraction

- Leveraging Walmart's BlueCart API to evaluate product and sales performance for a Walmart Reseller store through data extraction, cleaning, and analysis to drive business decisions.

Event Planner

- Build a web-based event planning tool that allows users to create and manage events, send invitations, and track RSVPs using Django, MySQL, Heroku, etc.

Teaching

Learning Practical Data Science and Machine Learning

July 2023

- Strong command of data science fundamentals, including data collection, cleaning, and analysis, providing a solid foundation for insightful decision-making.
- Proficiency in building, training, and deploying machine learning models, with hands-on experience across various applications.
- Skillful deployment of machine learning solutions to production, optimizing performance and functionality for real-world applications.

Technical Skills

Languages: Python, HTML/CSS, JavaScript, SQL

Developer Tools: Git, GitHub, Jupyter Notebook, PyCharm, Google Colab, Docker

Frameworks: TensorFlow, Pytorch, Keras

Tools: Pandas, NumPy, Seaborn, Matplotlib, Plotly, Streamlit, Heroku

Technologies and Platforms: NLTK, spaCy, Gensim, Flask, Django, Selenium, MongoDB, RESTful APIs, CI/CD Pipelines, MLOps, Hugging Face, LangChain, AWS sagemaker, Google Cloud Platform (GCP), OpenAI, ChatGPT

Methodologies : Exploratory Data Analysis, Machine Learning Engineering, Deep Learning, Natural Language Processing, Artificial Intelligence, Time Series Analysis, Databases, Data Analysis, Data Analytics, Data Mining, Text Mining, Pattern Recognition, Data Visualization, Feature Engineering, Data Engineering

Fields/Solutions: Generative AI, Image Processing, Conversational AI, Chatbots, AI Solutions, Predictive Modeling, Product-ionizing Models, Quantitative Analysis/Quantitative Analytics, Text Classification, Sentiment Analysis, BERT (Language Model), GPT-3, Large Language Models, Agile Development

Soft Skills: Problem-solving, Critical thinking, Collaboration, Adaptability, Communication, Self-motivation, Attention to detail, Teamwork, Skill Development, Learning

Certificates and Achievements

- Deep Learning Using Python (DataCamp)
- Machine Learning Scientist with Python (DataCamp)
- Data Analysis with Python
- Responsive Website Basics: Code with HTML, CSS, and JavaScript (Coursera)
- Teacher Assistant for **Data Science using Python** at FCIT
